### Relatório Sobre a Participação do INCT em Evento do EU-ASEAN Forum on Aviation Research and Innovation (R&I), em Singapura.

Díli, 07 de Maio de 2025

## Prefácio

Este documento trata-se de um relatório técnico da participação do INCT no Forum internacional no que diz respeito à pesquisa e inovação na aviação verde, em Singapura de 2025.

O INCT enquanto instituto de pesquisa mandatado pelo Estado assume pelo menos, quatro papéis essenciais: é um centro de Pesquisa, Desenvolvimento e Inovação Tecnológica do país; é uma agência estatal de financiamento para o desenvolvimento de Ciência, Tecnologia e Inovação (CTI) do país; é uma agência estatal de avaliação e acreditação dos centros de pesquisa aplicada e centros de pesquisa básica nas instituições de ensino superior no território nacional e; é um órgão agregador do repositório institucional e temático no território nacional para a promoção da ciência e tecnologia no país.

A depender da forma como o INCT exercer o seu papel atribuído, o estabelecimento de parcerias institucionais, tanto nacionais bem como internacionais à frente desses papéis, é uma forma de promover a CTI em diversos contextos, beneficiando todas as populações de Timor-Leste. Muitos programas de pesquisa, patrocinados por instituições de naturezas diferentes, como agências governamentais, instituições de pesquisa, líderes da indústria e acadêmicos para discutir oportunidades em pesquisas para a promoção de CTI em Timor-Leste.

Salienta-se que o INCT não é apenas um átomo complementar, mas também desempenha um papel importante em reuniões internacionais realizadas tanto no país quanto no exterior. A participação ativa do INCT no Forum de EU-ASEAN sobre a pesquisa e inovação recentemente, em Singapura, é um de muitos exemplos a evidenciar. O INCT foi solicitado para uma apresentação sobre a importância do repositório digital nacional para a promoção dos resultados de pesquisa em Timor-Leste naquele Forum.

O envolvimento do INCT em discussões internacionais aumentará repentinamente nos próximos anos enquanto meios de internacionalização da sua missão atribuída.

1ª Vice-Presidente do INCT

## **I. Apresentação**

Em Março de 2025, the European Union Aviation Safety Agency (EASA) convidou o INCT a participar em evento de EU-ASEAN Forum on Aviation Research and Innovation em Singapura.

O fórum reuniu os representantes importantes de agências governamentais, instituições de pesquisa, líderes da indústria e acadêmicos para discutir oportunidades em pesquisa e inovação na aviação.

O evento tem como objetivo fornecer insights sobre a cooperação EU-ASEAN no setor de aviação, as capacidades de pesquisa, as parcerias industriais e inovações emergentes, com foco especial em tecnologias de aviação verde, digitalização e parcerias público-privadas.

## **II. Informações Técnicas**

O evento foi realizado no Goodwood Park Hotel, em Singapura, de 25 a 27 de março de 2025, nas salas Arundel e Dover, que são subdivisões do salão Windsor. A maioria dos delegados foi hospedado no mesmo hotel.

## **III. Atividades Realizadas**

Os três dias do Fórum foram organizados de forma estruturada como aparece representado no anexo 2 com três agendas principais:

- DIA 1, 25/03/2025 – Preparando o cenário para a colaboração.
- DIA 2, 26/03/2025 – Aprimorando o ecossistema da aviação por meio da inovação.
- DIA 3, 27/03/2025 – Próximos passos para a futura cooperação.

Enquanto apresentador do INCT, eu fui convidado para abordar a questão da “**A IMPORTÂNCIA DO REPOSITÓRIO NACIONAL DIGITAL PARA A DISSEMINAÇÃO DOS RESULTADOS DE PESQUISA EM TIMOR-LESTE**”, sob Áreas Temáticas para Pesquisa e Inovação: Recursos de Pesquisa Colaborativa em formato do Painel de Discussão, abordando os benefícios, desafios

e oportunidades para Insights Compartilhados de Pesquisa entre os Estados Membros (Apresentação de PPT em anexo 3).

A apresentação foi muito bem apreciada pelos participantes e desejam a continuação de uma boa participação do INCT nos outros Forums posteriormente.

#### IV. Descrição do Espaço

A sala de Forum é organizada com mesas de grupo, em formato de "meia-lua", para aproximadamente de 50 participantes (Foto 1).

De uma forma genérica, salienta-se que por este modelo de organização, proporcionando os participantes na interação ativa e viva, nas conversas e trocas de ideias de forma aberta, nos debates coletivos para uma compreensão mútua, numa visualização clara entre os participantes e, com foco máximo nos palestrantes e, estimulando o trabalho em equipe para uma decisão coletiva.

## V. Considerações Finais

É de destacar que por este meio de discussão, o INCT se apresente a sua missão de trabalho e seu programas de pesquisa a escala da União Europeia e da ASEAN, explorando os mecanismos de apoio para a investigação científica em Timor-Leste.

A participação do INCT tem contribuído significativamente para moldar as discussões e fomentar a cooperação a longo prazo entre as partes interessadas da EU e da ASEAN. O fórum, também, se serviu como uma excelente oportunidade para interagir com especialistas, estabelecer contactos com potenciais colaboradores e

explorar mecanismos de financiamento que apoiem a investigação e o desenvolvimento da aviação em Timor-Leste.

**Subject: Invitation to the ASEAN-EU Forum on Aviation Research and Innovation (R&I)**

Attachment: Draft agenda

Dear Valentim Ximenes,

On behalf of the European Union Aviation Safety Agency (EASA), I am pleased to invite you or your nominated representative of the National Institute of Science and Technology (INCT), Timor-Leste to speak at the ASEAN-EU Forum on Aviation Research and Innovation (R&I). The forum is scheduled to take place from 25 to 27 March 2025, at the Goodwood Park Hotel, Singapore. This forum aims to foster collaboration, innovation, and knowledge-sharing between ASEAN and EU aviation stakeholders.

The three-day forum will bring together key representatives from government agencies, research institutions, industry leaders, and academia to discuss opportunities in aviation research and innovation. The event will provide insights into **ASEAN-EU aviation cooperation, research capabilities, industry partnerships, and emerging innovations**, with a special focus on green aviation technologies, digitalisation, and public-private partnerships.

Your participation will contribute significantly to shaping the discussions and fostering long-term cooperation between ASEAN and EU stakeholders. The forum will also serve as an excellent opportunity to engage with experts, network with potential collaborators, and explore funding mechanisms that support aviation research and development.

Please find attached the draft agenda outlining the key sessions and discussion topics. We encourage you to take advantage of the networking breaks and evening events to maximise engagement opportunities.

There is no registration fee and your travel and accommodation can be covered under the EU-funded **EU-ASEAN Sustainable Connectivity Package (SCOPE) Aviation Partnership Project (APP)**. Please contact our contracted expert, Mr Jamie Bloomfield ([jamie@propeloaviation.com](mailto:jamie@propeloaviation.com)), in order to join the event.

We look forward to welcoming you to Singapore for this important dialogue on the future of aviation research and innovation.

Yours sincerely,

David WALLER

# The Importance of National Digital Repository for the Dissemination of Research Outcomes in Timor-Leste

Valentim Ximenes

Vice President of National Institute of Science and Technology of República Democrática de Timor-Leste

Presentation at the ASEAN-EU Forum on Aviation Research and Innovation in Singapore, March 25 – 27, 2025

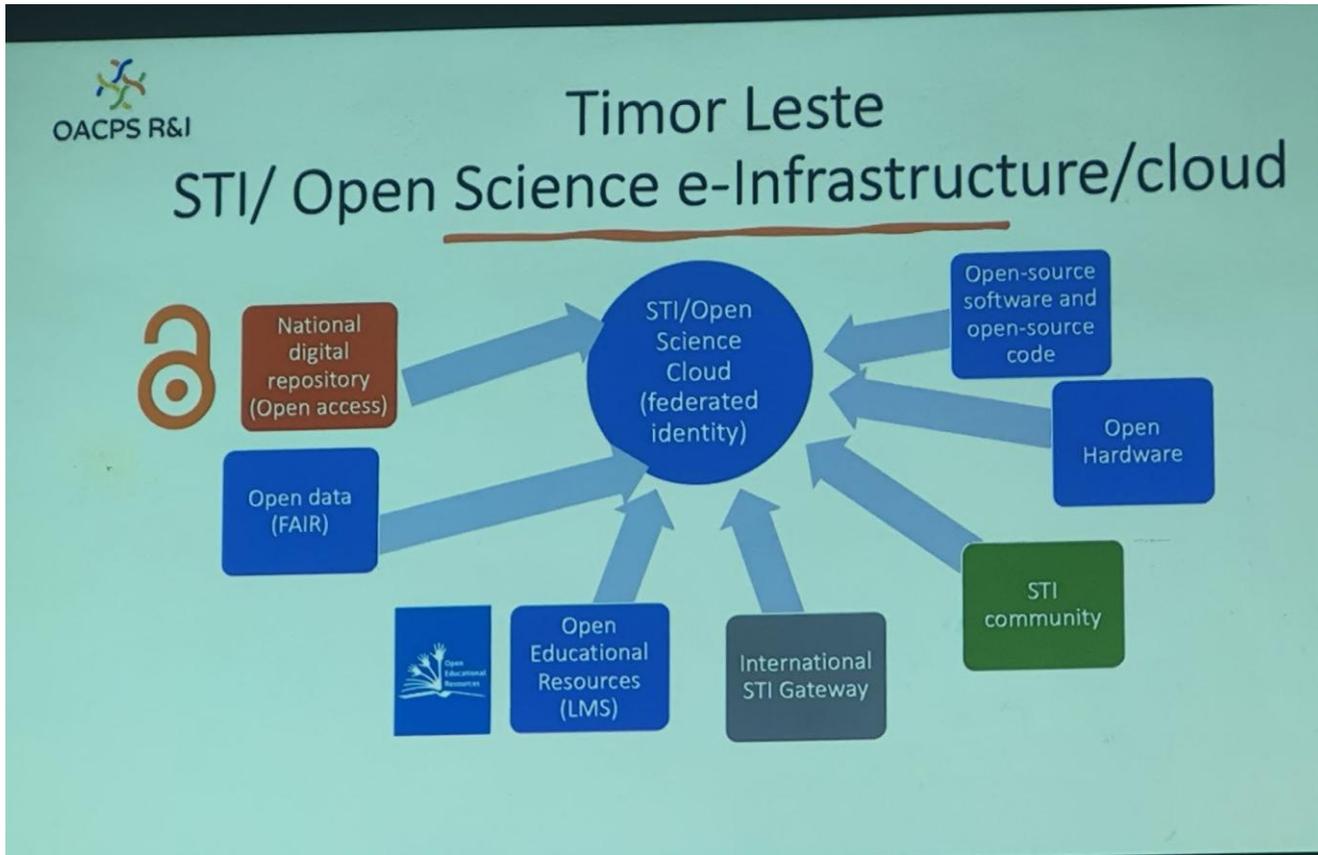

# 1. Introduction

- The National Institute of Sciences and Technology (INCT) is created by the Decree-Law N<sup>o</sup>. 5/2023 of March 8, First Amendment to the Decree-Law N<sup>o</sup>. 23/2014 of September 3, endowed with administrative, financial, heritage, scientific and editorial autonomous;
- As the Government Funding Agency in Science, Technology and Innovation (STI);
- As National Agency for the evaluation and accreditation of research centres;
- As an aggregating body of all institutional digital repositories in the country.

## 2. Mission

- To promote the advancement of scientific and technological knowledge;
- To explore in all scientific and technological domains to achieve the highest international standards of knowledge production;
- To disseminate its practical application for policy formulation;
- To store, preserve and disseminate the intellectual heritage of scientific, technological and academic nature in Timor-Leste.

# 3. Science, Technology & Innovation Policy

## **4. Benefits of National Digital Repository (NDR)**

- Scientific communication and dissemination;
- Scientific memory;
- Contribution to another researches;
- Public policy formulations
- Democratization of STI.

## **5. Challenges of the NDR**

- Space limitation;
- Financial limitation;
- Technical expertise limitation.

## 6. Opportunities for Shared Research Insights

- The NDR will be a Hub for sharing digitized research products among partners across nation-state borders for scientific-technological and societal advancements:
  - Community of Portuguese Speaking Countries (CPLP);
  - ASEAN;
  - Others
